

The Cogent Advantage

Cogent provides IP Transit connectivity to thousands of businesses across the globe. Whether you are a content provider or a carrier / ISP, Cogent bandwidth is the right choice. We offer more service locations than any other **Tier 1** carrier and outstanding **connectivity** to major access and content networks throughout the world. Powered by one of the most interconnected networks, Cogent provides reliable, scalable and affordable bandwidth. Our service is backed by local customer support centers and an industry leading Service Level Agreement.

Interfaces

A wide variety of interfaces to fit your needs

Gigabit Ethernet	100 Mbps - 1 Gbps
10 Gigabit Ethernet	500 Mbps - 10 Gbps
100 Gigabit Ethernet	10 Gbps - 100 Gbps

Features

Feature-rich IP Transit in over 1786 data centers globally

Flat or burst billing	IPv6 ready
Multiple BGP sessions	Blackhole server
Primary / Secondary DNS	Link Aggregation
IPv4 addresses	

Tier 1 Network

Our IP Transit service runs over Cogent's Tier 1 optical IP network, which is one of the largest of its kind. Cogent operates AS174, a historic autonomous system of the Internet. The Cogent network is directly connected to more than 8,043 other networks worldwide.

Connected to Content

If you are an access provider, Cogent's IP Transit service will connect you and your end users to the most popular content and application providers on the Internet - just one hop away! Your customers will appreciate low latency access to the best of what the Internet has to offer.

Connected to Eyeballs

Cogent's IP Transit service offers application and content providers the most reliable, scalable and cost-effective way to connect to eyeball networks. Whether your business is gaming, VoIP, social networking, streaming media, or the latest application, Cogent's network is the best way to expose your content to end users.

About Cogent

Cogent Communications Holdings, Inc. (NASDAQ: CCOI) is a multinational, Tier 1 facilities-based ISP, consistently ranked as one of the top five networks in the world. Cogent specializes in providing businesses with high speed Internet access, Ethernet VPN, optical transport, and colocation services. Cogent built one of the largest and highest capacity IP networks in existence, which enables Cogent to offer large bandwidth connections at highly competitive prices.
